

Art Walk Checklist

Self-Guided Activity Sheet

Familiarize yourself with the museum collection and discover art that stands out to you by completing the tasks below. You don't have to do them in order. Take your time to wander and explore. If you need a starting point, check out the prompts below the questions.

Find a Face That Fascinates You

Copy the person's expression and pose. What are your eyes, mouth, or hands doing?

*What kind of person is this?
How can you tell?*

Dive In

Look for artwork related to water, the weather, or the natural world. If you could dive or wander in, what might you see or feel?

Are you cold or warm? How does the air or water feel on your skin? What clues can you find?

POV: You're in the Artwork

Find a view you like. It can be landscape, a room, or any other space you enjoy. If you stepped into the artwork, what would you see if you looked across the space, up, down, or around?

Who do you bring with you?

Create a Cozy Space

Imagine designing your own cozy corner from the useful objects like furniture or dishes you find in the galleries.

How might you decorate it to make it aesthetically pleasing?

Word Games

Pinpoint an artwork with words or letters. It's okay if you don't know the language it's written in. What caught your eye about the letters?

Based on the other clues around the words, what might it say?

Outfit Inspo

What would you wear from LACMA's collection? It can be from a painting, a sculpture, or some of the costumes on display.

Where would you go in this outfit?

Hungry?

Find any art work that includes food. Based on appearance, what would you rate the plate?

If you were hosting a meal with a similar vibe, what would you serve?

LACMA
